**H<sub>2</sub>O Innovation: Utility Partners renews two operation and maintenance contracts and extends the scope of work of two municipal projects**

**Quebec City, September 6, 2017** – (TSXV: HEO) – H<sub>2</sub>O Innovation Inc. (“H<sub>2</sub>O Innovation” or the “Corporation”) is proud to announce that Utility Partners, LLC (“UP”), its business line providing operation and maintenance services (“O&M”) in the United States, recently renewed two (2) operation and maintenance contracts and extended the scope of work of two (2) municipal projects, totalling \$5.1 M, which bring the Corporation’s O&M business backlog to \$53.3 M, excluding the projects sales backlog.

Utility Partners renewed two (2) municipal operation and maintenance contracts in the States of California and New Hampshire, for an additional five (5) years each. UP also extended the scope of work of two (2) existing municipal contracts, located in the States of Georgia and New Hampshire. These scope expansions include, respectively, the billing and collection services as well as the septage receiving station monitoring.

“Now fully integrated into H<sub>2</sub>O Innovation, the UP team is now focused on renewing contracts and keeping the business growing. It is essential for us to be able to evolve with our existing customers’ needs, which is why we offer them a diversified and integrated range of services with in depth water and wastewater expertise. The last year has shown that our added value services generate greater customer retention as well as multiple cross selling opportunities”, **stated Frédéric Dugré, President and CEO of H<sub>2</sub>O Innovation.**

**About H<sub>2</sub>O Innovation**

H<sub>2</sub>O Innovation designs and provides state-of-the-art, custom-built and integrated water treatment solutions based on membrane filtration technology for municipal, industrial, energy and natural resources end-users. The Corporation’s activities rely on three pillars which are i) water and wastewater projects; ii) specialty products and services, including a complete line of specialty chemicals, consumables, specialized products for the water treatment industry as well as control and monitoring systems; and iii) operation and maintenance services for water and wastewater treatment systems.
