

## WATER & WASTEWATER TREATMENT PLANT OPERATOR

Winner of the **Global Water Company of the Year** at the 2020 Global Water Awards, H2O Innovation is a leader in customized water and wastewater treatment solutions using membrane technologies.

H2O Innovation operates, maintains, and repairs water and wastewater treatment plants, distribution equipment and other water utilities for municipal customers. It currently employs 376 employees for the operation of forty-four (44) utilities in nine (9) US states, mainly on the US Gulf coast, Southeast, New England and the West Coast.

### THE POSITION

Under direct supervision of the Plant Manager, **Water & Wastewater Treatment Plant Operator** accomplishes a variety of duties related to the daily operation of wastewater and water treatment (collection, treatment and distribution). The position is located at **Greenville, NH Wastewater/Water Treatment Plant**.

### THE DAY-TO-DAY

- Conducts routine testing of wastewater and water as directed, records test results and maintains the plant log book with accurate and timely entries of activities;
- Maintains the facility treatment units to include clarifiers, sampling equipment, and pumps. Identify and report the need for repairs to treatment plant equipment such as pumps, valves, motors, blowers, and chemical feed equipment;
- Monitors all charts, gauges and other operating equipment and maintains calibration of plant instrumentation and on-line analyzers according to the frequency specified by permitting agencies and/or the manufacturer;
- Calculates chemical feed rates, calibrates chemical equipment and adjusts chemical feed rates as indicated by lab tests or by direction of the Plant Manager to comply with effluent quality requirements as established for the plant. Adjusts or alters chemical treatment of plant processes as required;
- Responsible for housekeeping and grounds-up keep including mopping, dusting, mowing and weed trimming.

### SKILLS AND ATTRIBUTES DESIRED

- High school diploma or equivalent;
- Wastewater and Water NH or MA State License (preferred);
- Some technical or mechanical work experience (preferred);
- Valid driver's license;
- On-call availability within a 30-minute response time and rotational weekend duty is required for this position;
- Ability to work alone, with minimal supervision is a must;
- Must be able to operate electric motors fueled by gasoline, diesel, or gaseous fuels.

Trusted Utility Partners
