We urge you to give serious attention to the information on each matter set out in the attached Management Proxy Circular dated October 20, 2022 (the “**Circular**”).

Although the impacts of the COVID-19 pandemic have diminished considerably over the past few months and the withdrawal of most sanitary measures has brought us back to a sense of pre-pandemic normalcy, recent hospitalization statistics indicate that we are still at risk of outbreaks and of certain sanitary measures being reintroduced by authorities. If this should occur, the Corporation reserves the right to take any precautionary measures deemed to be appropriate, necessary or advisable in relation to the Meeting in response to developments in the COVID-19 pandemic and in order to ensure compliance with applicable laws, including without limitation: (i) changing the Meeting date and/or the means of holding the Meeting; (ii) denying access to persons who exhibit cold or flu-like symptoms; and (iii) such other measures as may be recommended by public health authorities in connection with gatherings of persons such as the Meeting. Should any such changes to the Meeting format occur, the Corporation will announce them by way of news release, which will be filed under the Corporation's profile on the System for Electronic Document Analysis and Retrieval (“**SEDAR**”) at www.sedar.com and on the Corporation's website at www.h2oinnovation.com. We strongly recommend you check the Corporation's SEDAR profile and website prior to the Meeting for the most current information. In the event of any changes to the Meeting format due to the COVID-19 pandemic, the Corporation will not prepare or mail amended materials in respect of the Meeting. Considering the foregoing, it is strongly recommended that you exercise your right to vote prior to the Meeting, as described in the attached Circular, although voting in person at the Meeting will also be possible.

At the Meeting, the shareholders will be asked to vote on the election of directors and the appointment of the auditor for the fiscal year ending June 30, 2023.

Following the formal portion of the Meeting, members of management will provide an update on the business and operations of H₂O Innovation Inc. and answer relevant questions.

MANAGEMENT PROXY CIRCULAR

October 20, 2022

1 VOTING INFORMATION

1.1 Notice-and-Access

H2O Innovation Inc. (the “**Corporation**” or “**H2O Innovation**”) has elected to use “notice-and-access” procedures as permitted under *Regulation 51-102 respecting Continuous Disclosure Obligations* (“**Regulation 51-102**”) and *Regulation 54-101 respecting Communication with Beneficial Owners of Securities of a Reporting Issuer* (“**Regulation 54-101**”) to deliver the notice of meeting, this management proxy circular (the “**Circular**”) and the annual report for the year ended June 30, 2022 (collectively, the “**Meeting Materials**”) to its shareholders rather than mailing such documents. Meeting Materials are available online, on the Corporation’s website at www.h2oinnovation.com/general-assembly and under its SEDAR profile at www.sedar.com. The shareholders of the Corporation should have received a package (the “**Notice Package**”) in the mail containing a notice of availability of materials with the information prescribed by Regulation 54-101 further explaining how to access and review the Meeting Materials and a form of proxy (if a registered shareholder, as defined in Section 1.2 - “Registered Shareholders” below) (the “**Form of Proxy**”) or a voting instruction form (if a non-registered shareholder, as defined in Section 1.3 - “Non-Registered Shareholders” below) (the “**VIF**”).

Notice-and-access is an environmentally friendly alternative to distribute the Meeting Materials, by reducing the use of paper and the energy consumption, while also lowering the Corporation’s printing and mailing costs.

As further detailed in the Notice Package, the shareholders of the Corporation can request a paper copy of the Meeting Materials no later than 4:00 p.m. (Eastern Time) on November 22, 2022, free of charge, by email at info@h2oinnovation.com or by phone at 1-888-688-0170 (Canada and United States). Please note that the shareholders will not receive another Form of Proxy or VIF and should retain the Form of Proxy or VIF included in the Notice Package to vote their common shares.

Notice Packages are being sent to both registered shareholders and non-registered shareholders of the Corporation’s securities. If you are a non-registered shareholder, and the Corporation or its agent has sent these materials directly to you, your name, address and information about your holding of securities have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding such securities on your behalf. By choosing to send the Notice Package to you directly, the Corporation (and not the intermediary holding on your behalf) has assumed responsibility for (i) delivering the Notice Package to you, and (ii) executing your voting instructions. Please return your voting instructions as specified in the VIF.

1.2 Registered Shareholders

Registered shareholders are the shareholders who have a share certificate, or a Direct Registration System (“**DRS**”) statement issued in their name and, as a result, have their name shown on the Corporation’s register of shareholders kept by TSX Trust Company (“**TSX Trust**”).

1.3 Non-Registered Shareholders

Most shareholders of the Corporation are “non-registered shareholders” because the shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the shares. More specifically, a person is a non-registered shareholder with respect to common shares held on behalf of that person but registered either:

(a) in the name of an intermediary that the non-registered shareholder deals with in relation to the shares which include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSPs, RRIFFs, RESPs and similar plans (an “**Intermediary**” or “**Intermediaries**”); or

(b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited (“**CDS**”)) of which the Intermediary is a participant.

Non-registered shareholders who have not objected to their Intermediary disclosing certain ownership information about themselves to the Corporation are referred to as non-objecting beneficial owners, or “**NOBOs**”. Those non-registered shareholders who have objected to their Intermediary disclosing ownership information about themselves to the Corporation are referred to as objecting beneficial owners, or “**OBOs**”.

In accordance with the requirements of Regulation 54-101 and as described in Section 1.1 - "Notice and Access" of this Circular, the Corporation has elected to use notice-and access procedures to send Meeting Materials to its shareholders. With that respect, the Corporation only sends, by mail, the Notice Package directly to the NOBOs, and indirectly through Intermediaries to the OBOs. The solicitation of proxies will be primarily made by mail but may be supplemented by telephone or other personal contact by the directors of the Corporation without additional compensation. The cost of solicitation of proxies will be borne by the Corporation and the Corporation intends to reimburse Intermediaries for reasonable costs incurred in sending the Notice Package to the OBOs. The Intermediaries (or their service companies) are responsible for forwarding the Notice Package to each OBO, unless the OBO has waived the right to receive them. The non-registered shareholders should carefully follow the instructions set out in the VIF including those regarding when and where the VIF is to be delivered.

1.4 Solicitation of Proxies

This Circular is related to the solicitation of proxies by the management of the Corporation for use at the Annual General Meeting of shareholders of the Corporation to be held at the date and time and for the purposes set forth in the accompanying notice of meeting. Unless otherwise indicated, information in this Circular is given as of October 20, 2022.

1.5 Appointment of Proxyholders

The persons designated as proxyholders in the Form of Proxy or the VIF are directors of the Corporation. **Any shareholder has the right to appoint a person other than the persons designated by management in the Form of Proxy or the VIF to represent such shareholder at the Meeting.** A shareholder desiring to appoint another person to represent such shareholder at the Meeting (including non-registered shareholders wishing to appoint themselves) may do so by striking off the names of the persons designated by management and by inserting such other person's name in the blank space provided in the Form of Proxy or the VIF.

A person acting as proxy need not be a shareholder of the Corporation.

The Form of Proxy or the VIF must be executed by shareholders or the attorneys of such shareholders, duly authorized in writing, and must be deposited with TSX Trust using one of the following methods. Please note that failure to deposit a Form of Proxy or a VIF before the deadline mentioned below shall result in its invalidation.

3 EXECUTIVE COMPENSATION DISCUSSION AND ANALYSIS

3.1 General

3.1.1 Governance, Remuneration and ESG Committee

The Committee and its Members

The Corporation’s compensation mechanisms are monitored by the Governance, Remuneration and ESG Committee of the Board of Directors of the Corporation (the “**Governance Committee**”). On July 1, 2021, the members of the Governance Committee were René Vachon, Lisa Henthorne and Elisa Speranza. Following the resignation of René Vachon, effective on June 30, 2022, Elisa Speranza was appointed as Chair of the Governance Committee, and Louis G. Véronneau, who had been elected as director of the Corporation at the Annual General Meeting of Shareholders held on December 9, 2021, was appointed as member. Therefore, the Governance Committee’s members are currently Elisa Speranza, as Chair, Lisa Henthorne and Louis G. Véronneau.

All of the current members of the Governance Committee are “independent directors” within the meaning of Regulation 58-101, as defined in Section 7.1.1 - “Independent Directors” of this Circular, and have relevant experience to fulfill their responsibilities as to the compensation of the Named Executive Officers (as described in Section 3.7).

For information regarding the credentials and skills of the current members of the Governance Committee who will seek re-election as directors at the Meeting, please refer to the table titled “Nominees for Election to the Board of Directors” under Section 2.2 of this Circular. Mr. Véronneau is not standing for re-election, as his new functions prohibit external board involvement. Therefore, his credentials are described below.

Louis G. Véronneau is Managing Director, Strategic Initiatives, Real Assets (Real Estate, Natural Resources and Infrastructure) at PSP Investments. He started his career in 1994, practising securities law at a Canadian law firm before joining in 1998 a natural-resource company operating across North America, Europe and Asia where he was general counsel and then head of strategy and corporate development. From 2007, he worked at TD Securities, where he was Managing Director, Investment Banking. In 2015, he joined Bombardier where, as Senior Vice President, Strategy and Corporate Development, he led a series of transactions aiming at de-risking and streamlining the company’s focus. In 2020, he became Executive Vice-President and Chief Transformation Officer at SNC-Lavalin where he led the company’s refocus and rationalization programme. Mr. Véronneau is a graduate of the University of Montreal and the London School of Economics and Political Science (LSE). In addition to his role on the Board of the Company, he is currently also serving on the Board of the Montreal Symphony Orchestra.

The Governance Committee meets at least twice a year and provides oversight, assessment, guidance and/or recommendations to the Board of Directors on the following matters: (i) corporate governance affairs, (ii) succession planning, performance review and compensation of the executive officers and members of the Board of Directors, (iii) employee benefits and talent management, (iv) risk management, (v) health & safety and environmental compliance, (vi) ESG plans and initiatives as well as (vii) cybersecurity. In addition, the Governance Committee reviews and recommends, for approval by the Board of Directors, any statement related to the executive compensation included in any management proxy circular as well as any other document related to executive compensation.

3.1.2 Compensation Objectives

The Corporation's executive compensation philosophy is designed to attract, retain and reward highly qualified individuals and motivate them to achieve performance objectives aligned with the Corporation's strategic orientation and consistent with shareholder value creation. The Corporation's goal is to provide market competitive remuneration aligned with responsibility level, experience and performance. The Governance Committee must ensure that the compensation of the Corporation's executive officers is consistent with the compensation philosophy of the Corporation.

In accordance with the Corporation's philosophy, a significant portion of the compensation of the Corporation's executive officers is related to the financial performance of the Corporation, and to the responsibilities inherent to their respective duties. The Governance Committee reviews, on an annual basis, the compensation packages of the executive officers in order to ensure their competitiveness and compliance with the objectives, values and strategies of the Corporation.

During fiscal year ended June 30, 2021, the services of Hugessen Consulting Inc., a compensation consultant, were retained by the Governance Committee to review the compensation strategy and policies of the Corporation. Hugessen Consulting Inc. presented its report and recommendations to the Governance Committee in February 2021. After review of the compensation consultant's report and following discussions between the members of the Governance Committee and the Board of Directors, some of their recommendations were approved and implemented during fiscal year ended June 30, 2021, such as (i) the addition of an anti-hedging provision in the Disclosure, Confidentiality and Trading Policy of the Corporation and (ii) the implementation of a Clawback Policy. Other recommendations such as salary increases, short-term incentive plan matrix and amendments to the severance payable to some executive officers in the context of a change of control have also been approved, effective as of July 1, 2021.

3.1.3 Elements of Compensation

The Corporation seeks to achieve the compensation objectives described earlier through different elements of compensation. The Corporation believes that these various elements are important to effectively achieve the objectives of its executive compensation philosophy.

The following table provides a concise summary of the various components of compensation to which the Corporation's Named Executive Officers are entitled. For a more detailed description of such components, please refer to Sections 3.2 - "Non-Equity Compensation", 3.3 - "Equity Compensation" and 3.4 - "Other Compensation" below.

COMPONENTS OF EXECUTIVE COMPENSATION		
NON-EQUITY COMPENSATION		
Component	Philosophy	Description
Base Salary	Position the Corporation at a competitive level within its peer group and consider the Corporation's expansion objectives.	Revised annually by the Governance Committee based on recommendations provided by the CEO of the Corporation. Base salary may increase according to the Named Executive Officer's level of experience and responsibilities.
Annual Variable Remuneration	Important component of the compensation strategy to : (i) encourage the achievement of corporate and personal targets; and (ii) support team spirit, which is key to create value for the Corporation's shareholders.	Cash bonus representing a certain percentage of the Named Executive Officer's annual base salary and based on the achievement level of financial and non-financial targets determined by the Governance Committee and approved by the Board of Directors. The achievement of such targets and the amount of variable remuneration to be paid is assessed by the Governance Committee annually and approved by the Board of Directors.
Cash Plan	Align pay and performance by rewarding executive officers for long-term strategic accomplishments and enhancement of long-term shareholder value.	The cash plan is the non-equity component of the Long-Term Incentive Plan (the "LTIP") for certain Named Executive Officers. Awards granted in the form of a cash plan represent a percentage of the executive officer's base salary for a given fiscal year.
EQUITY COMPENSATION		
Component	Philosophy	Description
Stock Option Plan	Attract and retain key employees and executive officers. Provide an incentive to participate in the long-term development of the Corporation and to increase shareholder value.	Option-based awards are the equity component of the LTIP for certain Named Executive Officers. The Board of Directors may approve, upon recommendation of the Governance Committee, grants of stock options to managers, key employees and consultants of the Corporation, as per the Corporation's Stock Option Plan, as detailed in Section 8.1 - "Stock Option Plan".

OTHER COMPENSATION		
Component	Philosophy	Description
Employee Benefits	Provide an effective and attractive executive compensation program.	Participation in the Corporation's car program or car allowance, as the case may be; Life and disability insurance; Health insurance plan; and Collective Registered Retirement Savings Plan ("RRSP") for its Canadian employees and an active employer sponsored retirement savings plan (401(k)) for its US employees.
Share Purchase Plan ("SPP")	Encourage the Corporation's employees and executive officers to hold shares of the Corporation, to: (i) align their interest with those of the other shareholders, and (ii) promoting the culture of synergies within the Corporation.	Shares obtained pursuant to the SPP are purchased on the market and are not issued from the treasury. Corporation's contribution equal to 25% of the participant's contribution. No vesting period.

3.1.4 Benchmarking – Executive Officers' Compensation

As previously mentioned, the services of a compensation consultant, Hugessen Consulting Inc., were retained during the fiscal year ended June 30, 2021 to review the executive compensation strategy and policies of the Corporation, the design of the STIP and LTIP, and some governance considerations, by measuring the current compensation strategy of the Corporation against that of comparable companies, as listed in the "Compensation Peer Group Table" under Section 3.1.6 below, and by reviewing the different components or criteria of the annual variable remuneration. The compensation consultant performed a benchmark analysis with respect to the main components of the executive officers' compensation.

The analysis performed by the compensation consultant set ranges for executive officers' target total direct compensation, which includes base salary, STIP and LTIP. The compensation consultant concluded that the total direct compensation of the Corporation's executive officers is positioned below the 25th percentile of the Peer Group (as defined below) for all positions. The Governance Committee made recommendations to the Board of Directors to increase the base salary of the executive officers and to review the STIP structure with a payout range allowing achievement of the threshold, target or maximum for all metrics. These recommendations have been approved by the Board of Directors and were implemented effective on July 1, 2021.

3.1.5 Benchmarking – Non-Executive Directors' Compensation

Hugessen Consulting Inc. also performed a review of the compensation for the non-executive directors of the Corporation. The Corporation's non-executive director compensation structure was benchmarked against market compensation data gathered within the Peer Group.

Based on the results of the benchmarking analysis, the Governance Committee recommended, and the Board of Directors approved, increases of the annual fixed cash retainer and equity grant (cash compensation used to acquire Corporation's common share) for the non-executive directors, as all director profiles are also positioned below the 25th percentile of the Peer Group. These recommendations were implemented effective on July 1, 2021.

3.1.6 Compensation Peer Group Table

The peer group which was identified and used to benchmark the main components of the executive officers' compensation was comprised of twelve (12) companies, most of them being publicly traded, chosen based on the following guidelines: similar size, Canadian or American companies with operations primarily in America, having a business model including one or more of the three pillars of the Corporation and having publicly disclosed compensation data (the "**Peer Group**").

The table below lists all companies included in the Peer Group and summarizes the most important criteria used to determine which companies to include in it. The data shown in the table is up to date as of January 19, 2021 and all figures shown are in Canadian dollars (source: S&P Capital IQ).

3.1.7 Executive Compensation-Related Fees

During the past two (2) years, the Corporation paid the following fees to compensation consultants hired to assist the Governance Committee and the Board of Directors in determining the compensation of the Corporation's directors and executive officers:

Fees	Fiscal year ended June 30, 2022	Fiscal year ended June 30, 2021
Executive Compensation-Related Fees	---	\$21,200
All Other Fees	---	---

3.2 Non-Equity Compensation

3.2.1 Base Salary

Base salaries of the Named Executive Officers for the fiscal year ended June 30, 2022 are provided in Section 3.7 - "Summary Compensation Table" below. Effective on July 1, 2021 the base salaries of the Named Executive Officers (except for Mr. William Douglass) have been increased by 8% to 20% in order to bring them closer or above the 25th percentile of the Peer Group, provided that the Chief Operating Officer's base salary was adjusted to reflect his key position within the Corporation and his competitiveness across the water industry. Mr. William Douglass's base salary was increased by 1.5% on April 1, 2022, in line with the salary increase granted to managers of the Corporation holding a similar position.

3.2.2 Short-Term Incentive Plan (STIP)

The Corporation's short-term incentive plan includes maximum potential cash payments based on various objectives related to the financial and non-financial performance of the Corporation that are set at the beginning of the year, as well as certain strategic objectives which spread the risk associated with any one objective at the expense of another.

Annual Variable Remuneration

For the purpose of establishing the annual variable remuneration, each Named Executive Officer's performance is evaluated based on the level achievement of targets related to financial and non-financial performance (collectively, the **"Performance Criteria"**). The following table provides an outlook of the annual variable remuneration structure of the Named Executive Officers. Each criterion is attributed a specific weight, which varies from one Named Executive Officer to the other.

Criteria	Financial Performance	Non-Financial Performance
Components	<ul style="list-style-type: none"> Revenues EBITDA / EBAC¹ 	<ul style="list-style-type: none"> Tactical Objectives (Roadmap) 360° Evaluation Health and Safety
Weight	70% to 80%	20% to 30%

All components of the Performance Criteria, as well as their target, minimum and maximum performance levels when applicable, are approved annually by the Board of Directors, following recommendations from the Governance Committee. After year end, the Governance Committee evaluates the level of achievement (in percentage) of each of the Performance Criteria for each Named Executive Officer compared to the target level that had been set for each criterion (the **"Performance Evaluation"**). The Governance Committee then reviews, for each Named Executive Officer, the value for each of the criteria, based on the Performance Evaluation and on the weighting of each of the criteria for such Named Executive Officer. Then, the values for each of these criteria are added to obtain the actual annual variable remuneration payable to the Named Executive Officer.

The portion of the annual variable remuneration relating to financial performance is only payable if a certain EBITDA level is reached. For the fiscal year ended June 30, 2022, since the level of EBITDA previously established and approved by the Board of Directors was reached, the Named Executive Officers were entitled to receive the portion of their annual variable remuneration related to financial performance, which represents 78.53% of the total amount of annual variable remuneration granted to the Named Executive Officers for fiscal year ended on June 30, 2022, regardless of the percentage to which each of them was entitled.

The Corporation believes that disclosing the minimum, target and maximum levels established for the financial performance criteria as well as the targets of the division-level performance criteria would seriously prejudice the Corporation's interests. Disclosing these figures could be wrongly perceived by shareholders as an indication of the future growth of the Corporation. Also, such information is considered by the Corporation to be commercially sensitive in a highly competitive industry and the Corporation wishes to keep this information out of reach from its competitors, the vast majority of which are private companies who are not required to publicly disclose their financial information.

The target amount of annual variable remuneration that may be paid to each Named Executive Officer ranges from 0% to 60% of the Named Executive Officer's annual base salary. Effective on July 1, 2021 the Board approved, upon recommendation of the Governance Committee, an amendment to the annual variable remuneration plan in order to allow certain Named Executive Officers to stretch their annual variable remuneration by 12% to 18% in the event that the Performance Criteria are exceeded up to a maximum level established by the Governance Committee.

Named Executive Officers	% of the Base Salary (Target)	% of the Base Salary (Maximum)	Performance Criteria	
			% related to Financial Performance Criteria	% related to Non-Financial Performance Criteria
Frédéric Dugré President and Chief Executive Officer	60%	78%	80%	20%
Marc Blanchet Chief Financial Officer	50%	65%		
Guillaume Clairet Chief Operating Officer	50%	65%		
Gregory Madden Chief Strategy Officer	40%	52%		
William Douglass Vice President and Managing Director, O&M	40%		70%	30%

¹ EBAC means earnings before administration costs and this component is only applicable to the calculation of Mr. William Douglass' annual variable remuneration.

3.2.3 Long-Term Incentive Plan (LTIP)

During fiscal year ended June 30, 2021, the Board of Directors approved, following recommendations from the Governance Committee, the implementation of a LTIP to the benefit of the certain Named Executive Officers (referred to as the “**Participants**” for the purpose of this Section 3.2.3 and when it is referred to the LTIP in this Circular), after having considered and assessed a certain number of factors to determine the Corporation’s long-term incentive strategy, including the balance between sustained long-term shareholder value creation and the executive retention risk. The intent of the Board of Directors is to grant long-term incentive awards (the “**Awards**”) every fiscal year based on the updated 3-year Strategic Plan of the Corporation, in order to have a LTIP comprised of either cash, equity or a mix of cash and equity (such as, without limitations, stock options or performance share units). However, there can be no assurance that Awards will be granted every year.

Once the grant of Awards is approved by the Governance Committee, the Board of Directors determines the performance measures and metrics to be considered for the LTIP, which are tightly linked to the objectives, metrics and key performance indicators of the Corporation’s 3-year Strategic Plan (the “**LTIP Goals**”). The grant of Awards to the Participants is discussed and approved at meetings of the Governance Committee and the Board of Directors. In order to determine each Participants’ Award, the Committee takes into consideration individual performance, retention risk, Corporation’s compensation approach and the equity position or ownership of the Participants. The LTIP performance period has been determined to be a period of three (3) years beginning on the first day of the Corporation’s fiscal year and ending on the last day of the third following fiscal year (the “**Performance Period**”).

In the event that the Corporation fully achieves the LTIP Goals for a given Performance Period, each Participant is entitled to receive the target Award granted by the Board of Directors at the beginning of the Performance Period. Participants’ actual Awards at the end of the Performance Period may vary from their target Award if H₂O Innovation performs above or below the LTIP Goals.

Cash Plan

In February 2021, the Governance Committee determined that the Awards for fiscal year ended June 30, 2021, based on the results of Performance Period beginning on July 1, 2020 and ending on June 30, 2023 (the “**2020-2023 Performance Period**”), would be in the form of a cash plan. For the 2020-2023 Performance Period, the Awards granted to the Participants represent a percentage of their respective base salary for fiscal year ending on June 30, 2021, which will be paid out to the Participants at the end of the 2020-2023 Performance Period ending on June 30, 2023 if the LTIP Goals are reached:

Target Award	Participant	Maximum Award
30%	President and Chief Executive Officer	60%
25%	Chief Operating Officer Chief Financial Officer	50%
20%	Chief Strategy Officer	40%

3.3 Equity Compensation

3.3.1 Option-Based Awards

As mentioned in Section 3.2.3 - “Long-Term Incentive Plan (LTIP)” above, the Corporation’s LTIP is comprised of either cash, equity or a mix of cash and equity (such as, without limitation, stock options or performance share units).

On May 17, 2021, the Governance Committee determined that the Awards for the Performance Period beginning on July 1, 2021 and ending on June 30, 2024 would be in equity, under the form of stock options. Therefore, stock options were granted to the Participants on May 17, 2021 under the LTIP as follows:

Participant	Number of Stock Options
President and Chief Executive Officer	396,000

Outside of the LTIP, the decision to grant stock options is based on the following factors: the terms and conditions of the employment agreements, anticipated future contributions, prior option grants, the number of vested and unvested options, competitive market practices, responsibilities and performance. Stock option grants are recommended by the Governance Committee to the Board of Directors, which ultimately has the responsibility to award options. Therefore, the Corporation may authorize, from time to time, the grant of stock options to its directors, executive officers and employees. The relative importance of stock options in the remuneration of executive officers and employees will generally vary depending on the number of stock options that are outstanding at the time. For further details as to the specific terms of the Stock Option Plan, see Section 8.1 - "Stock Option Plan" below.

During fiscal year ended on June 30, 2022, no stock options have been granted to the Named Executive Officers, except for Mr. William Douglass who received an aggregate number of 85,500 stock options of the Corporation. For further details, see Section 3.7.1 - "Grant of Stock Options".

3.4 Other Compensation

3.4.1 Employee benefits

Named Executive Officers are entitled to benefits directly related to the performance of their duties and position of Named Executive Officers, such as participation in the Corporation's car program, car allowance, as well as life and disability insurance, as the case may be. Moreover, the Named Executive Officers are covered by the Corporation's health insurance plan, available to all the employees.

The Corporation has implemented a collective RRSP for the benefit of all its Canadian employees, including the Named Executive Officers located in Canada. Any Canadian employee who has been employed by the Corporation for more than three (3) months can participate in the RRSP. Since October 2021, the Corporation, as employer, contributed an amount equivalent to 3% of the employee's salary if the employee worked on a full-time basis and had contributed the same amount or more. The Corporation's contribution is only acquired or vested if the employee has contributed to the RRSP for more than one (1) year.

The Corporation's collective employer sponsored retirement savings plan ("**401(k)**") was implemented for the benefit of all its US employees, including the Named Executive Officers located in the USA. Employees are eligible to participate in such plan after three (3) months of employment. The Corporation, as employer, contributes an amount equivalent to 100% of the employee's contribution, up to a maximum amount equivalent to 3% of the employee's salary. The Corporation's contribution is acquired or vested over a period of five (5) years of full-time employment.

None of the Named Executive Officers is entitled to perquisites or other personal benefits which are worth over \$50,000 or over 10% of their base salary.

3.4.2 Share Purchase Plan

In July 2014, the Corporation established a Share Purchase Plan for the benefit of its employees, those of its affiliated companies, including the Named Executive Officers, and its directors. Pursuant to the Corporation's SPP, all employees who have (i) completed three (3) months of continuous service with the Corporation or any of its affiliates, and (ii) contributed in the 401(k) plan or RRSP (as defined in Section 3.4.1 - "Employee benefits") an amount equivalent to 1.5% of their base salary, are allowed to contribute up to a certain percentage of their annual salary towards the purchase of shares of the Corporation. In addition, any new director is eligible, upon his or her nomination or election as member of the Corporation's Board of Directors, to participate in the SPP and each director is allowed to contribute up to the maximum amount received as annual fixed retainer.

3.4.3 President and Chief Executive Officer

The compensation of the President and Chief Executive Officer includes the same elements of compensation described in Section 3.2 - "Non-Equity Compensation", Section 3.3 - "Equity Compensation" and Section 3.4 - "Other Compensation".

3.5 Risks associated with the Corporation's Compensation Policy

The Governance Committee has considered the implications of the possible risks associated with the Corporation's compensation policies and practices which includes identifying anything that may encourage Named Executive Officers to take inappropriate or excessive risks and identifying and mitigating risks arising from the Corporation's compensation policies and practices that are reasonably likely to have a material adverse effect on the Corporation. It is the Governance Committee's view that the Corporation's compensation policies and practices do not encourage inappropriate or excessive risk taking.

In May 2021, the Corporation's Disclosure, Confidentiality and Trading Policy was amended to add an anti-hedging provision applicable to the Corporation's directors, executive officers, and employees having access to material information.

In addition, a Clawback Policy was adopted by the Corporation on May 12, 2021, which allows the Board of Directors of the Corporation to recover from executive officers, or from their respective direct reports, any compensation paid under STIP, LTIP, bonus programs, commissions or other form of incentive compensation upon the occurrence of specific events.

3.6 Conclusion

The Governance Committee is satisfied that the Corporation's executive officers and directors compensation policies, programs and levels of compensation, as disclosed in Section 3 - "Executive Compensation Discussion and Analysis" of this Circular are aligned with the Corporation's performance and shareholders' interest and reflect competitive market practices.

- (1) Gregory Madden joined the Corporation in November 2009. In February 2014, he was appointed as Vice President Products & Services before becoming Vice President and Managing Director, Aftermarket & Digital Solutions in September 2017. On July 1, 2020, Gregory Madden was appointed Chief Strategy Officer of the Corporation. Since Mr. Madden's remuneration is paid in US dollars, his remuneration has been converted to Canadian dollars for the purposes of this Circular by using the average exchange rate in effect during the year, which means 1.2657 for 2022, 1.2396 for 2021 and 1.3576 for 2020.
- (2) William Douglass joined the Corporation on July 26, 2016 with the acquisition of Utility Partners, LLC (“**Utility Partners**”) as Senior Vice President prior to becoming Vice President, Operations and Maintenance and Managing Director of Utility Partners on January 26, 2018. Since Mr. Douglass's remuneration is paid in US dollars, his remuneration has been converted to Canadian dollars for the purposes of this Circular by using the average exchange rate in effect during the year, which means 1.2657 for 2022, 1.2396 for 2021 and 1.3576 for 2020.
- (3) The stock options granted to the Messrs. Frédéric Dugré, Marc Blanchet, Guillaume Clairret and Gregory Madden during fiscal year ended June 30, 2021 are part of the LTIP and for the Performance Period beginning on July 1, 2021 and ending on June 30, 2024. As these stock options have a vesting period of 5 years, 20% of the stock options granted will be available for the Participants to exercise annually, on a cumulative basis, from May 17, 2022. Therefore, as of June 30, 2022, 20% of the stock options granted to each of Messrs. Frédéric Dugré, Guillaume Clairret, Marc Blanchet and Gregory Madden on May 17, 2021 was vested. The fair value of each stock option granted was determined by using the Black-Scholes option pricing model and was established at \$1.566 per option. Fair market value's key assumptions and estimates are described in Section 3.7.1 - “Grant of Stock Options” of this Circular.
- (4) As of June 30, 2022, none of the stock options granted to William Douglass were vested. As these stock options have a vesting period of three (3) years, 33.3% of the stock options granted will be available for William Douglass to exercise annually, on a cumulative basis, from November 15, 2022 for the options granted on November 15, 2021, and from May 16, 2023 for the options granted on May 16, 2022, as detailed in Section 3.7.1 - “Grant of Stock Options” below. The fair value of each stock option granted on November 15, 2021 was determined by using the Black-Scholes option pricing model and was established at \$1.308 per option. The fair value of each stock option granted on May 16, 2022 was also determined by using the Black-Scholes option pricing model and was established at \$1.176 per option. Fair market value's key assumptions and estimates are described in Section 3.7.1 - “Grant of Stock Options” of this Circular.
- (5) The non-equity incentive plan compensation refers to the STIP and LTIP, as further detailed in Section 3.2.2 - “Short-Term Incentive Plan (STIP)” and Section 3.2.3 - “Long-Term Incentive Plan (LTIP)” of this Circular.
- (6) The amounts disclosed under “All Other Compensation” include benefits that are also generally available to all other employees of the Corporation, such as the Corporation's contribution to the SPP, premium for life and disability insurance plan, and the Corporation's contributions into personal saving plans and health insurance plan, as well as participation in the Corporation's car program, as the case may be. Therefore, none of the Named Executive Officers are entitled to perquisites or other personal benefits worth over \$50,000 or over 10% of their base salary. During fiscal years 2020 and 2021, the Corporation also contributed to a private health and medical program for Messrs. Frédéric Dugré, Marc Blanchet and Guillaume Clairret, but no such contribution was granted during fiscal year 2022.
- (7) For the fiscal year ended June 30, 2020, Messrs. Frédéric Dugré, Marc Blanchet and Guillaume Clairret were each awarded a one-time special bonus of \$50,000 recognizing their significant contribution in successfully planning, negotiating and closing the acquisition of Genesys Holdings Limited (“**Genesys**”) as well as completing, at the same time, an equity financing and negotiating new credit facilities. Mr. Gregory Madden received a one-time special bonus of US\$20,000 as leader of the integration of the Genesys acquisition. Since Mr. Madden's one-time special bonus was paid in US dollars (CDN\$27,152), the amount of such one-time bonus was converted to Canadian dollars by using the average exchange rate that was in effect during the year 2020, which means 1.3576.

3.7.1 Grant of Stock Options

During fiscal year ended June 30, 2022, the Board of Directors of the Corporation did not grant stock options to the Named Executive Officers, except for Mr. William Douglass who was granted 10,500 stock options on November 15, 2021 and 75,000 stock options on May 16, 2022.

On November 15, 2021, a total of 573,000 stock options, having an exercise price of \$2.64 and a vesting period of three (3) years, have been granted by the Corporation to high and mid-level managers of the Corporation. One third (1/3) of the aggregate number of options awarded is vested, on a cumulative basis, each year on the anniversary date of the grant. In determining the fair value of the stock option-based awards granted on November 15, 2021, the Black-Scholes option pricing model, an established methodology, was used, with the following assumptions:

- (i) Risk-free interest rate: 1.48%;
- (ii) Expected volatility in the market price of 57.00%;
- (iii) No dividend yield; and
- (iv) Expected life of 5.0 years.

On May 16, 2022, a total of 2,100,000 stock options, having an exercise price of \$2.25 and a vesting period of three (3) years, have been granted by the Corporation to high and mid-level managers of the Corporation. One third (1/3) of the aggregate number of options awarded is vested, on a cumulative basis, each year on the anniversary date of the grant. The Black-Scholes option pricing model was used to determine the fair value of the stock option-based awards granted on May 16, 2022, with the following assumptions

- (i) Risk-free interest rate: 2.71%;
- (ii) Expected volatility in the market price of 56.06%;
- (iii) No dividend yield; and
- (iv) Expected life of 6.0 years.

(2) During the first quarter of fiscal year ended on June 30, 2022, the Corporation's contribution was equal to 1.5%

(3) Since Mr. Madden's and Mr. Douglass's car allowance is paid in US dollars, the amount of such car allowance has been converted to Canadian dollars for the purposes of this Circular by using the average exchange rate in effect during the year, which means 1.2657 for 2022.

3.8 Performance Graph

On March 22, 2022, the Corporation graduated from the Toronto TSX Venture Exchange Inc. to the Toronto Stock Exchange. On June 30, 2022, the closing price of the common shares on the Toronto Stock Exchange was \$1.78 per share. The following graph shows the cumulative return of a \$100 investment on the common shares made on July 1, 2017, compared to the total return of the S&P/TSX-V and S&P/TSX Composite Indexes for the period shown on this graph.

Since July 1, 2017

	2017	2018	2019	2020	2021	2022
HEO	\$100.00	\$89.66	\$75.86	\$73.79	\$161.38	\$123.45
TSX-V	\$100.00	\$98.95	\$78.29	\$82.93	\$128.47	\$82.54
TSX	\$100.00	\$107.35	\$108.27	\$102.54	\$133.28	\$124.66

The trend shown by the performance graph above represents an increase slightly above 23% in the cumulative total shareholder return from July 1, 2017 to June 30, 2022. From July 1, 2017 until the end of fiscal year ended on June 30, 2020, the price of the common shares has been globally affected negatively, despite a small increase during fiscal year ended on June 30, 2019. The significant decrease that occurred in 2020 is mainly explained by the market volatility due to the COVID-19 pandemic. Therefore, during the period from July 1, 2018 to June 30, 2020, the cumulative total shareholder return was 18% less than the fiscal year ended on June 30, 2018, which represent an aggregate decrease of the cumulative total shareholder value by approximately 28%. On its side, during the same period, the S&P/TSX-V Composite Index experienced a decrease of approximately 16% while the S&P/TSX Composite Index suffered a small decrease of nearly 5%. From July 1, 2020, the price of the Corporation's common shares increased significantly to reach its highest level for this five (5) year period before a small decrease over the following months. At the end of fiscal year ended June 30, 2021, the cumulative total shareholder return was approximately 118% more than the previous 3-year period. During the fiscal year ended on June 30, 2022, the price of the common shares has been globally affected negatively, despite occasional positive spikes. This decrease is mainly explained by the market volatility due to global economy as a result of the Covid-19 pandemic and the war between Ukraine and Russia. However, from July 1, 2017 until June 30, 2022, the cumulative total shareholder return gained approximately 23% of its value compared to a decrease of the S&P/TSX-V Composite Index by approximately 17% and an increase of the S&P/TSX Composite Index by nearly 24%, over the same period.

For the same five-year period, the base salaries received by the Named Executive Officers, in aggregate, globally increased by 20.5%. This five-year increase in compensation paid to Named Executive Officers is calculated by comparing the base salary paid during the fiscal year ended June 30, 2018 with base salary paid during the fiscal year ended June 30, 2022, to those individuals who were Named Executive Officers during the applicable year, which, in the Corporation's case, concerns the President and Chief Executive Officer, the Chief Financial Officer, the Chief Operating Officer and the Vice President and Managing Director, Operation and Maintenance since they are the only Named Executive Officers who were there on July 1, 2017 and are still Named Executive Officers today. This calculation does not take into account (i) the annual variable remuneration since the accounting recognition changed during this period upon recommendation of our former auditor and the annual variable remuneration with respect to financial performance criteria is not granted each year, and (ii) the value of the options granted or vested under the Stock Option Plan during each of the fiscal years ended between 2017 and 2022 because no regular grants were made between this period of time. Therefore, the respective annual variable remuneration paid to the Named Executive Officers during that period of time as well as the respective value earned under the sporadic grant of options were not taken into consideration for the calculation of the growth of Named Executive Officers' compensation over that five-year period.

(1) Since Mr. Madden and Mr. Douglass's remuneration is paid in US dollars, their potential termination payment has been converted to Canadian dollars for the purposes of this Circular by using the average exchange rate in effect during the year, which means 1.2657 for 2022.

7 STATEMENT OF CORPORATE GOVERNANCE PRACTICES

In 2005, the Canadian Securities Administrators (the “CSA”) adopted *Regulation 58-101 respecting Disclosure of Corporate Governance Practices* (the “CSA Disclosure Instrument”) and *Policy Statement 58-201 to Corporate Governance Guidelines* (the “CSA Governance Policy”) (CSA Disclosure Instrument and CSA Governance Policy being collectively referred to as “Regulation 58-101”). The CSA Governance Policy provides guidance on governance practices for Canadian issuers. The CSA Disclosure Instrument requires issuers to make the prescribed disclosure regarding their governance practices. The Board of Directors of the Corporation considers good corporate governance to be important to the effective operations of the Corporation.

The Governance Committee makes recommendations regarding the compliance of the Corporation’s practices with the CSA Governance Policy, oversees disclosure obligations related thereto and implements governance guidelines that, in its opinion, are appropriate given the Corporation’s size and current stage of development. Pursuant to the requirements of the CSA Disclosure Instrument, the Corporation provides below a response to each item, which, together, describe how the Corporation has integrated these “best practices” of corporate governance.

7.1 Board of Directors

7.1.1 Independent Directors

The Governance Committee has reviewed the independence of each director within the meaning of Regulation 58-101. A director is “independent” if he or she has no direct or indirect material relationship with the Corporation. A “material relationship” is one that could, in the view of the Board of Directors, be reasonably expected to interfere with the exercise of a director’s independent judgment.

The Governance Committee has determined, after reviewing the role and relationships of each of the directors and nominee directors, that (i) seven (7) of the eight (8) nominee directors proposed by management for election to the Board of Directors at this Meeting and (ii) seven (7) of the eight (8) current directors, are independent. Therefore, a majority of the Corporation’s directors are independent. The Governance Committee and the Audit Committee are entirely composed of independent directors. The Board of Directors and its committees ensure that they exclude the non-independent directors and management from their meetings from time to time, as appropriate. No specific meeting of independent directors was held during the fiscal year ended June 30, 2022.

The important role of the Governance Committee and the Audit Committee in the management of the Corporation provides a certain degree of leadership for the independent directors who regularly meet separately from management.

7.1.2 Non-Independent Directors

Mr. Frédéric Dugré is the only candidate for election to the Board of Directors not considered as independent by the Governance Committee, as he currently serves as President and Chief Executive Officer of the Corporation.

7.1.3 Chairwoman of the Board

Since November 13, 2018, the Chairwoman of the Board is Lisa Henthorne, an independent director. The Board of Directors has adopted a written mandate for the Chairwoman of the Board in order to establish her specific duties and responsibilities. As Chairwoman of the Board, she chairs the meetings of the Board of Directors and, accordingly, is responsible for the management, development and performance of the Board of Directors. She must ensure that the Board of Directors properly performs the tasks related to its mandate and that directors clearly understand and respect the boundaries between the responsibilities and liabilities of the Board of Directors and those of the management. She also promotes the Corporation’s efforts to achieve its objectives, maintain its viability and pursue its strategic vision.

7.2 Mandate of the Board of Directors

The Board of Directors has adopted a formal written mandate for itself, which is set forth in Schedule “A” of this Circular.

7.3 Position Descriptions

The Board of Directors has adopted written position descriptions for the Chairwoman of the Board and for the Chairs of each of its committees and has also approved a written position description for the President and Chief Executive Officer. Senior management is responsible for daily operations and management of the Corporation's business, subject to compliance with the plans approved from time to time by the Board of Directors.

7.4 Orientation and Continuing Education

In addition to having access to all public information about the Corporation, newly appointed directors receive comprehensive information about the role of the Board of Directors, its committees, and its directors, as well as current governance policies. New directors also have extensive discussions with the Chairwoman of the Board, the President and Chief Executive Officer and the Chair of the Governance Committee with respect to the Corporation and its activities. Minutes from previous meetings are also available to them. From time to time, presentations are made to the Board of Directors to update its members on business strategies and any changes within the Corporation and to inform them about regulatory and industry requirements and standards.

7.5 Code of Ethics and Policies

The Board of Directors has adopted a formal written mandate for both the Audit Committee (in accordance with Regulation 52-110) and the Governance Committee. The Board of Directors has also adopted an Ethics and Business Conduct Policy (the "**Code**") as well as a Disclosure, Confidentiality and Trading Policy and a Delegation of Authority Policy, all of which apply to the Corporation's directors, officers and employees. Copies of the mandates of the Audit Committee and Governance Committee, as well as of the Code, are available on the Corporation's website at www.h2oinnovation.com/investors/charters-policies. A copy of the Code has also been filed on SEDAR (www.sedar.com) and copies of the Code and certain internal policies can be obtained, free of charge, by contacting the Investors Relations Department of the Corporation at the address set forth in Section 10 - "Additional Information" below.

Since the beginning of the Corporation's most recently completed fiscal year, no material change report has been filed regarding conduct of any director or executive officer that marks a departure from the Code.

7.5.1 Internal Policies

The Board of Directors monitors the dissemination of and compliance with the policies outlined below, either directly or through its committees, based on, among other things, (i) management reports with respect to significant matters that occurred during a quarter in the different departments of the Corporation, such as human resources, finance, manufacturing, sales, etc., (ii) review of insider trading on a quarterly basis, (iii) regular assessment of internal controls and identification of any deficiencies and (iv) quarterly certifications provided to the Audit Committee and the Board of Directors.

The Corporation takes the necessary steps to ensure that all directors, executive officers and employees covered by the relevant policies are made aware of their content and importance. All policies are made available to employees on the Corporation's intranet.

KEY POLICIES	
Delegation of Authority Policy	The Delegation of Authority Policy (" DOA ") defines the limits of authority for the different positions of responsibility within the organizational hierarchy of the Corporation, its subsidiaries, or business lines. The DOA establishes the nature and maximum value of obligations that may be approved by the Corporation's representatives based on their hierarchical position.
Disclosure, Confidentiality and Trading Policy	The Disclosure, Confidentiality and Trading Policy defines what information regarding H ₂ O Innovation may or may not be disclosed to the public, ensuring that confidential information regarding H ₂ O Innovation remains undisclosed. This policy also ensures that the trading of H ₂ O Innovation's securities by directors, officers, employees and certain other persons related to H ₂ O Innovation and its subsidiaries remains in compliance with applicable securities laws.
Clawback Policy	The purpose of the Clawback Policy is to authorize the recovery of any compensation paid under STIP, LTIP, bonus programs, commissions or other forms of incentive compensation upon the occurrence of specific events described in the policy.
Corporate Risk Policy and Profile	The Corporate Risk Policy and Profile of the Corporation gathers the potential risks identified by the management to the achievement of the organization's objectives and determines the exposure level to these risks given current controls and/or mitigation activities.
Whistleblower Policy	Under the Whistleblower Policy, employees, managers and executive officers are encouraged to communicate the existence of a problem or serious concern in good faith regarding wrongdoing that may occur within the Corporation.

KEY POLICIES	
Board and Senior Leadership Gender Diversity Policy	When identifying and considering the selection of candidates for election or re-election to the Board, or for appointment to a senior leadership position, the Governance Committee will take into account diversity criteria such as the gender, age, ethnicity, disability and geographical background of the candidate.
Policy Regarding Tenure on the Board of Directors	Directors who have joined the Board of Directors prior to January 1, 2022 may serve as director for a maximum of sixteen (16) years, and Directors who joined the Board on or after January 1, 2022 may serve as director for a maximum of twelve (12) years.
Diversity, Equity and Inclusion Policy	The Diversity, Equity, and Inclusion Policy encourages and enforces respectful communication and teamwork between all employees of diverse social, cultural and sexual background, by prohibiting inappropriate or discriminatory conduct by employees and allowing for disciplinary action, up to dismissal, to be taken against employees who engage in such conduct.

In addition to the key policies described above, the Corporation has put in place and continues to update the following policies:

- Suppliers Code of Conduct;
- Procurement Code of Conduct;
- Telework Policy;
- Equal Employment Opportunity Policy;
- Drug and Alcohol Policy;
- Workplace Harassment Policy;
- Disciplinary Measures and Dismissal Policy;
- Vacation Policy;
- Health and Safety Manual; and
- IT Policy.

7.5.2 Employee Manual and Management Training

The managers of the Corporation usually participate in a two-day “Management Bootcamp” every two (2) years. Throughout this event, all managers participate in presentations, training, activities, and conferences about the current best management practices. The latest Management Bootcamp was held in March 2022. The managers have access to useful documentation concerning recruitment, retention and mobilization, health and safety, and payroll and benefits. Managers attend monthly meetings with executive officers and quarterly with corporate support services (Human Resources, Information Technology, Marketing, Finance, Legal, Procurement and Health & Safety) allowing discussions on their concerns, issues and other important matters in their respective department.

7.5.3 Related Party Transactions

In order to ensure that directors exercise independent judgment when considering transactions and agreements in which directors or executive officers have a material interest, the Governance Committee monitors the disclosure of conflicts of interest by directors and ensures that no director will vote or participate in a discussion on a matter in which such director has a material interest.

7.6 **Nomination and Recruitment of Directors**

The Board of Directors is responsible for director recruitment, orientation, and training. Recruitment is based on the capabilities and experience of the candidates in relation to the Corporation's needs, and the number of hours that individuals can give to the Corporation.

The Corporation does not have a nominating committee since the Governance Committee is in charge of recruiting new directors and assessing the overall effectiveness of the Board of Directors, its committees, and the efforts of each director as outlined in Regulation 58-101.

7.7 Compensation

7.7.1 Determination of the Compensation

Directors

The Governance Committee reviews annually and makes recommendations to the Board of Directors regarding the adequacy and form of the compensation for non-executive directors to ensure that such compensation realistically reflects the responsibilities and risks involved.

The Governance Committee is responsible for reviewing, when it deems it necessary, the compensation practices of comparable companies with a view of aligning the Corporation's non-executive directors' compensation with the peer comparator group median. As mentioned in Section 3.1.5 - "Benchmarking - Non-Executive Directors' Compensation" of this Circular, a compensation consultant was retained by the Corporation during the fiscal year ended June 30, 2021, in order to perform a review of the compensation of non-executive directors. Directors who are executive officers of the Corporation do not receive additional remuneration for services rendered as directors.

Executive Officers

The compensation of the Corporation's executive officers consists principally of base salary, STIP such as annual variable remuneration and LTIP such as cash plan and option-based awards. As mentioned in Section 3 - "Executive Compensation Discussion and Analysis" of this Circular, the executive officers' remuneration is reviewed annually and a compensation consultant was retained by the Corporation during the fiscal year ended June 30, 2021 to perform a review of the compensation of executive officers.

7.7.2 Composition of the Governance Committee

On July 1, 2021, the members of the Governance Committee were René Vachon, Lisa Henthorne and Elisa Speranza. Following the resignation of René Vachon, effective on June 30, 2022, Elisa Speranza was appointed as Chair of the Governance Committee, and Louis G. Véronneau, who had been elected as director of the Corporation at the Annual General Meeting of Shareholders held on December 9, 2021, was appointed as member of the Governance Committee, effective on June 30, 2022.

7.7.3 Mandate of the Governance Committee

The main responsibilities and powers of the Governance Committee are outlined in greater detail in the document entitled "Mandate of the Governance, Remuneration and ESG Committee" set forth in Schedule "B" of this Circular.

7.8 Other Committees

7.8.1 Strategy, Innovation and Large Projects Committee

In addition to the Audit Committee and the Governance Committee, the Board of Directors decided to create the Strategy, Innovation and Large Projects Committee (the "**Strategy Committee**") to, among other things, review certain operation and maintenance contracts and approve submissions of bids for certain capital equipment projects, in accordance with its mandate and the Corporation's Delegation of Authority Policy. The Strategy Committee must be composed of at least four (4) members, being one (1) independent director, two (2) members of the Corporation's management, and one (1) independent advisor having expertise, experience and know-how in the water treatment industry. Any additional members of the Strategy Committee shall be either independent, non-related director or independent advisor with relevant expertise. As of October 20, 2022, the Chairman of the Strategy Committee is Mr. Pierre Côté, the other independent directors are Ms. Elisa M. Speranza and Mr. Louis G. Véronneau, the members of the Corporation's management are Mr. Frédéric Dugré and Mr. Guillaume Claret, and the advisory member is Mr. Leonard F. Graziano.

7.9 Annual Performance Review

On an annual basis, the Chairwoman of the Board assesses the performance, contribution and effectiveness of the Board of Directors as a whole, of each member of the Board of Directors as an individual and of the committees of the Board of Directors, within the meaning of Regulation 58-101. Questionnaires are distributed electronically to each director for the purpose of (i) evaluating the responsibilities and functions of the Board of Directors, its operations, how it compares with boards of other companies on which the directors serve, and the performance of the committees of the Board of Directors, and (ii) evaluating the performance of the Chairwoman of the Board. The results of the questionnaires are compiled on a confidential basis to encourage full and frank commentary and are discussed at the next regular meeting of the Board of Directors. The Chairwoman of the Board and the Chair of the Governance Committee (as to the performance review of the Chairwoman of the Board) present to the Board of Directors their findings and recommendations to enhance performance, contributions and effectiveness.

7.10 Director Term Limits

On October 20, 2022, the Board of Directors adopted a policy regarding tenure on the Board of Directors (the “**Tenure Policy**”), which introduces the following term limits, applicable to all non-executive directors:

- Directors who have joined the Board of Directors prior to January 1, 2022 may serve as director for a maximum of sixteen (16) years;
- Directors who joined the Board on or after January 1, 2022 may serve as director for a maximum of twelve (12) years.

Exceptionally, the Governance Committee may recommend, on a case-by-case basis, that a director who has reached his/her term limit be nominated by the Board of Directors to serve additional one (1) year mandates, for a maximum of four (4) years, subject to being annually elected by the Shareholders of the Corporation. In determining whether to make such a recommendation to the Board, the Governance Committee will consider, among other things, if the director has received strong positive annual performance review results and if it is in the best interest of the Corporation that the director continues to serve on the Board of Directors.

At this time, the directors who currently sit on the Corporation’s Board of Directors have held their office for:

- Less than 1 year: 2 directors
- 1 to 5 years: 2 directors
- 6 to 10 years: 1 director
- 11 to 15 years: 2 directors
- 16 years and up: 1 director

7.11 Environmental, Social and Governance (ESG)

The Corporation’s management and Board of Directors recognize that ESG responsibility is a key priority for its stakeholders, and the Corporation is implementing measures to ensure that it is well positioned to become a leader in these matters. In December 2021, the Corporation developed its first ESG plan, which can be found on the Corporation’s website. H₂O Innovation’s ESG plan is comprised of 6 key objectives, namely (1) reduce water stress by improving water stewardship, (2) commit to reaching net zero carbon emissions by 2040, (3) reduce the Corporation’s Total Case Incident Rate (TCIR) to less than 1.0 by 2025, (4) increase engagement index to 80%, (5) increase woman and minority diversity of H₂O Innovation employees, and (6) ensure complete data security with 100% control of information, data and access. For additional information on the Corporation’s ESG plan, please refer to Section 5.6 - “Environmental, Social and Governance (“**ESG**”) Practices” of the AIF.

7.12 Diversity, Equity and Inclusion

The Corporation strives to provide an equitable and inclusive workplace and a culture that empowers its people, where diversity, equity and inclusion (“**DE&I**”) are valued. The approach of the Corporation to DE&I is part of its wider commitment to ESG, and the Corporation’s DE&I programs are priorities of the Corporation. A Diversity, Equity and Inclusion Policy (“**DE&I Policy**”) was implemented by the Corporation in December 2020, and is applicable, but not limited to, Corporation’s practices and policies on recruitment and selection, compensation and benefits, professional development and training, promotions, social and recreational programs, and the ongoing development of a work environment built on the premise of gender and diversity equity. As of January 1, 2022, 20.4% of the Corporation’s employees were over 50 years old and 18.1% identified as women.

On November 11, 2020, the Corporation surveyed 310 employees from all of its business lines on DE&I matters. The survey provided interesting metrics on ethnicity, language spoken at home, sexual orientation and disability. After having performed an analysis of the survey results, the key action items and initiatives that are, or will be, implemented in the DE&I program of the Corporation include:

- Focus on human resources and corporate policies and procedures that will promote workplace DE&I;
- Promote the DE&I strategy internally and externally;
- Review of the Corporation’s interview selection process in order to create a strong diversity recruiting strategy;
- Conduct an internal audit on salaries and equity (fair treatment); and
- Develop a newsletter for the management which provides tips on how to adopt more inclusive behaviours.

7.13 Diversity of the Board of Directors and Senior Management

The Corporation recognizes the benefits of promoting diversity at the level of the Board of Directors and those in senior leadership positions. The Corporation believes that diverse perspectives enhance its organizational strength, problem solving ability, and opportunity for innovation and considers it essential to approve and implement a policy to define its vision on this matter.

Diversity is an important consideration in determining the composition of the Board of Directors. The Corporation seeks to maintain a Board of Directors comprised of talented and dedicated directors with a diverse mix of experience, skills, and backgrounds collectively reflecting the strategic needs of the business and the nature of the environment in which the Corporation operates. The Corporation believes that a Board of Directors made up of highly qualified individuals from diverse backgrounds promotes better corporate governance and performance and effective decision-making.

Although the Corporation has not determined specific gender diversity targets for executive officers, it has determined targets for members of Designated Groups (as further defined in the *Employment and Equity Act* (Canada), as including women, Aboriginal peoples, persons with disabilities and members of visible minorities) for the members of the Board of Directors and has chosen to promote a selection approach that supports the recruitment of women and gender diverse candidates. In addition, the Governance Committee considers processes and practices for director nominations, leadership development and senior leadership roles across the Corporation, while taking into considerations a variety of personal characteristics (gender, age, ethnicity, geographical representation, expertise and culture). H2O Innovation's core values recognize the importance of all its people, regardless of race, gender, beliefs or place of origin and does not discriminate against or for any candidate based on their belonging to a Designated Group.

On September 27, 2022, the Board of Directors approved the Corporation's Board and Senior Leadership Gender and Diversity Policy (the "**Board Diversity Policy**"). The Governance Committee is responsible for overseeing and ensuring the implementation and enforcement of the Diversity Policy. The Board Diversity Policy provides that the Governance Committee will, when recommending new candidates to the Board of Directors or for senior management positions, consider diversity criteria such as the gender, age, ethnicity, disability or geographical background of the candidate, in addition to the talent-related criteria of advanced experience, expertise, skill and others. In cases when two or more candidates are deemed to have equal talent, candidates who are women, indigenous people, persons with disabilities and members of visible minorities will be prioritized by the Governance Committee. When recommending candidates to the Board, the Governance Committee will also take into account its target for gender diverse directors to represent 30% of the Corporation's directors by the 2023 Annual General Meeting of shareholders.

Below are the percentages of members of each of the above-mentioned Designated Groups among the Board of Directors and the senior management of the Corporation and its major subsidiaries as of October 20, 2022:

- Two (2) women (25%) currently sit on the Corporation's Board of Directors and they are also proposed as directors, with a third woman who would also join the Board of Directors, if elected. Of our two (2) current women directors, one (1) is the Chairwoman of the Board, two (2) sit on the Governance Committee (67%) and one (1) is a member of the Strategy Committee (20%).
- One (1) woman currently holds a senior management position (8.33%).
- One (1) senior manager of the Corporation, leading a business line or being in charge of a corporate support service, self-identifies as being part of a visible minority group (8.33%).
- None of the current members of the Board of Directors or senior managers self-identify as a person with disability.
- None of the current members of the Board of Directors or senior managers self-identifies as an Aboriginal person.

8 OTHER INFORMATION

8.1 Stock Option Plan

The Corporation has one stock option plan (the "**Stock Option Plan**"), which was approved by the shareholders. The Stock Option Plan was created for the benefit of directors, executive officers, and key employees of the Corporation or of one of its subsidiaries as well as consultants, as such term is defined in *Regulation 45-106 Respecting Prospectus Exemptions* (the "**Eligible Persons**"). The purpose of the Stock Option Plan is to provide incentive to Eligible Persons to achieve the longer-term objectives of the Corporation, to give suitable recognition of the ability and industry of such persons who contribute materially to the success of the Corporation and to attract and retain persons of experience and ability, by providing them with the opportunity to acquire an increased proprietary interest in the Corporation. As mentioned in Section 3.3.1 - "Option-Based Awards" of this Circular, the Stock Option Plan is also considered by the Board of Directors as the equity portion of the LTIP for the executive officers.

During the fiscal year ended June 30, 2022, the Board of Directors approved amendments to the Stock Option Plan (i) to fix at 8,000,000 the number of common shares reserved for issuance under the Stock Option Plan, which, as of June 30, 2022, represented approximately 8.9% of the total issued and outstanding common shares of the Corporation; (ii) to comply with the requirements of the Toronto Stock Exchange; (iii) to provide for a cashless provision in favour of the optionholders; and (iv) to subject the Stock Option Plan to any clawback policy adopted, from time to time, by the Board of Directors. In accordance with the policies of the TSX-V applicable to the Corporation at such time, securityholder approval was not required for such amendments.

Pursuant to the Corporation's Stock Option Plan, the Board of Directors may, from time to time, in its discretion, and in accordance with the requirements of the Toronto Stock Exchange, grant non-transferable options to purchase common shares of the Corporation, exercisable for a period of up to ten (10) years. The vesting period is twenty-four (24) months following the issuance of options unless the Board of Directors decides otherwise. Certain other terms and conditions of the options may be determined by the Board of Directors at the time of the grant.

The exercise price of the options is determined by the Board of Directors at the time of the grant of an option, but cannot be lower than the volume weighted average trading price of the common shares on the principal stock exchange on which the common shares are trading for the five trading days immediately preceding the day on which the stock option is granted.

If approved by the Board of Directors, in lieu of paying the exercise price in cash for the common shares that may be issued pursuant to the exercise of options, a participant may elect to acquire the number of common shares determined by subtracting the exercise price from the VWAP, multiplying the difference by the number of common shares in respect of which the stock option was otherwise being exercised and then dividing that product by such VWAP. In such an event, the number of common shares as so determined (and not the number of common shares to be issued under the stock option) will be deemed to be issued under the Stock Option Plan and all the options surrendered will be cancelled.

The total number of common shares issuable to any one individual or to insiders cannot exceed respectively 5% and 10% of the total number of common shares issued and outstanding at the time of the grant. In addition, the Stock Option Plan provides for specific limitations for grants in favour of non-executive directors, being defined as directors who are neither an employee, an executive officer or a service provider of the Corporation. Following the termination without cause of an optionee's position with the Corporation or upon the death of an optionee, options may be exercised no later than 365 days following the date of such termination or death. Notwithstanding any other term or condition of the Stock Option Plan, in the event an optionee resigns from his or her office or employment, or an optionee's contract as a consultant terminates at its normal termination date, the options held by such optionee which have not been previously exercised will expire sixty (60) days following i) the delivery of the resignation notice by the optionee to the Corporation or ii) the normal expiration date of the optionee's contract, as the case may be.

The following table indicates, as of June 30, 2022, the number of common shares to be issued upon exercise of outstanding options, the weighted average exercise price of outstanding options and the number of common shares remaining for future issuance under the Stock Option Plan as of the date hereof. The Stock Option Plan provides that the exercise price of the options granted is determined by the Board of Directors but cannot, however, be lower than the market price, pursuant to the rules of the securities regulatory authorities.

Plan Category	Number of Securities to be Issued upon Exercise of Outstanding Options (a)	Weighted Average Exercise Price of Outstanding Options (b)	Number of Securities Remaining Available for Future Issuance under the Equity Compensation Plans (Excluding Securities Reflected in Column (a)) (c)
Equity compensation plans approved by securityholders	6,008,334 common shares ⁽¹⁾	\$2.11	1,991,666 common shares ⁽²⁾
Equity compensation plans not approved by securityholders	---	---	---

(1) Representing approximately 6.7% of the 90,007,408 common shares issued and outstanding as of June 30, 2022.

(2) Representing approximately 2.2% of the 90,007,408 common shares issued and outstanding as of June 30, 2022.

Annual Burn Rate

The following table presents, for each of the Corporation's three most recently completed fiscal years, the annual burn rate of the options granted under the Stock Option Plan during the applicable fiscal year. The annual burn rate is calculated by dividing the number of options granted during the applicable fiscal year by the weighted average number of shares outstanding for that year.

Fiscal Year Ended June 30,	Number of Stock Options Granted Under the Stock Option Plan ⁽¹⁾	Weighted Average Number of Shares Outstanding ⁽²⁾	Annual Burn Rate ⁽³⁾
2022	2,673,000	88,189,057	3.03%
2021	1,056,000	79,469,345	1.33%
2020	None ⁽⁴⁾	69,018,459	0%

(1) Corresponds to the number of securities granted under the plan in the applicable fiscal year.

(2) The weighted average number of securities outstanding during the period corresponds to the number of securities outstanding at the beginning of the period, adjusted by the number of securities bought back or issued during the period multiplied by a time-weighting factor. The time-weighting factor is the number of days that the securities are outstanding as a proportion of the total number of days in the period.

(3) The annual burn rate percent corresponds to the number of securities granted under the plan divided by the weighted average number of securities outstanding.

(4) No options were granted during fiscal year ended June 30, 2020.

The Board of Directors may make the following types of amendments to the Stock Option Plan without seeking the approval of the shareholders of the Corporation: (i) amendments of a “housekeeping” nature; (ii) amendments necessary to comply with the provisions of applicable law (including, without limitation, the rules, regulations and policies of the Toronto Stock Exchange); (iii) amendments necessary in order for options to qualify for favourable treatment under applicable taxation laws; (iv) amendments respecting the administration of the Stock Option Plan; (v) any amendment to the vesting provisions of the Stock Option Plan; (vi) any amendment to the termination provisions of the Stock Option Plan or any stock option, provided any such amendment does not entail an extension of the expiry date of such stock option beyond its original expiry date; (vii) the addition or modification of a cashless exercise feature, payable in cash or in securities, which provides for a full or partial deduction of the number of underlying Shares from the Stock Option Plan reserve; (viii) amendments necessary to suspend or terminate the Stock Option Plan; and (ix) any other amendment, whether fundamental or otherwise, not requiring shareholders’ approval under applicable laws.

However, the Board of Directors may not, without the approval of the shareholders of the Corporation, make amendments to the Stock Option Plan for any of the following purposes: (i) to increase the maximum number of shares that may be issued pursuant to options granted under the Stock Option Plan; (ii) to reduce the exercise price of options; (iii) to extend the expiry date of options; (iv) to broaden the definition of “Eligible Person”; (v) to increase the maximum number of shares issuable to insiders under the Stock Option Plan; (vi) to permit transfers or assignment to any person not currently permitted under the Stock Option Plan; (vii) to increase the value of options granted or to remove or increase the percentage limit relating to Shares issuable, in each case, to non-executive directors; or (viii) to amend the provisions of Section 6.2.3 of the Stock Option Plan that are described in this paragraph.

8.2 Options Reserved for Issuance to Management

The Corporation’s Stock Option Plan does not have any provisions in this regard. Therefore, no options are reserved for exclusive issuance to executive officers or management.
